Subject: 1026 group filing

Dear Ms. Glutz:

Thank you for your patience. I waited as long as I could to see if the chapters could get their paperwork back, approved by their states, but to no avail. Turns out that they only finally got around to sending the paperwork in this month!

I am requesting that the Group Exemption Letter be issued with only the two subordinate organizations (SiliconWeb, Greater Delaware Valley) included for the current fiscal year.

We will want to add other subordinates in the future. Now that we have a better understanding of the process and requirements, the paperwork should be a lot simpler to process for chapters who want to participate. Will the two that did not complete the process this round have to resubmit all of the original paperwork?

Again, thank you for your understanding and patience in working with us to get the exemption letter issued.

Best regards, and wishes for a great New Year.

Bruce
